## THE FINAL ADJOURNMENT

CONGRESS ADJOURNS AFTER AN EIGHT MONTHS' SESSION.

A Review of the Business Transacted During the Session—For his Fairness as Speaker, the Republican Tender Mr. Carlisle a Handsome Testimonial.

WASHINGTON, Aug. 6.—The first session of the Forty-ninth congress adjourned at 4 o'clock this afternoon. All of the appropriation bills and the river and harbor bill have received the approval of the president, with the exception of the fortification bill, which is now conveyed to a failure.

Since the completion of the failed Resumption of the proceedings of this congress up to Monday morning last, there have been added to the 3,881 bills introduced and referred to the committees a half dozen private measures in the senate, and of the 1,957 bills reported back from senate committees, about eighteen reports, all relating to private bills. The committees in the house have also done some work since Monday morning. They have added fourteen to the 3,447 reports made on bills, and have also added slightly to the 9,996 bills introduced and referred. Most of the reports made were on bills which received action in committee last week.

Quite a few of executive communications in the form of departmental information have been received by both houses this week, ordered printed and referred, and will be given attention next session. Only the leading committees of either house have been at work during the past month, as it became evident months ago that none but private legislation and a very few general bills could receive action. It is said that no committee work will be wanted by this than any two former congresses, that exclusive of pension bills, less than 3 per cent of the measures introduced will become laws, while the average of the last two congresses was 6 per cent; that of the forty-eight congresses being a fraction above 6 per cent. of the bills introduced. The president has increased this number by the bills vetoed from 107 to 111.

The only measure of a general interest outside of the appropriation passed this week, was the Morrison surprise resolution. This time has been considered, as anticipated, in the consideration of conference reports. It was hoped that an agreement would be reached on the bill repealing the present law, timber, culture and desert lands acts, but that with the conference on the Northern Pacific land forfeitures, fortifications, Mexican pensions and two or three other measures, goes over to the next session. The usual authority to sit during the recess of congress has been granted to the house committee on appropriations, and the clerks of the committee will be at work compiling the bills for the fiscal year ending June 30, 1889, at least six weeks before congress meets in December.

Early in February, it is expected, the appropriation bill will begin to reach the president's desk. It is expected that it will be devoid of anything farther than the routine expenditures can readily be disposed of.

Speaker Carlisle's Testimonial. WASHINGTON, Aug. 6.—Two or three months ago several of the leading Republican members of the house conceived the idea of tendering to Speaker Carlisle a testimonial of some kind in appreciation of his high-toned courtesy and fairness to political opponents as well as political friends in the administration of the speaker. It has been a general sentiment that no man has ever lived in the speaker's chair who has shown less of politeness or personal bias in the conduct of his duties than Speaker Carlisle. It has been a general sentiment that no man has ever lived in the speaker's chair who has shown less of politeness or personal bias in the conduct of his duties than Speaker Carlisle. It has been a general sentiment that no man has ever lived in the speaker's chair who has shown less of politeness or personal bias in the conduct of his duties than Speaker Carlisle.

The Closing Hours Orderly. WASHINGTON, Aug. 6.—Speaker Carlisle issued an order prohibiting the sale of all intoxicants in the restaurant of the house after the closing of the session. The order was issued to avoid the repetition of scenes in former houses at the close of sessions occasioned by men under the influence of liquor. The closing hours of this session was thus made very orderly.

Labor Investigating Committee. WASHINGTON, Aug. 6.—The special labor investigating committee, Mr. Curtis, of Pennsylvania, chairman, has been authorized to act during recess of congress, but its contingent fund amounts to only \$1,000, its labors will be abbreviated. It may visit one or two eastern cities to take some testimony in the fall.

Sigma Nu Convention. LEXINGTON, Ky., Aug. 6.—The Sigma Nu fraternity are holding their biennial convention in the parlors of the Phoenix hotel. There are present a great number of young men from the principal colleges in Pennsylvania, Virginia, West Virginia, North Carolina, Georgia, South Carolina, Alabama, Kentucky, Missouri, Kansas. The convention will be in session two days, during which time a grand banquet will be given. The closing of the session of congress is the finest young men in the above named states.

A Railroad Office Hobbed. SPRINGFIELD, Mo., Aug. 6.—The presence of Barnum's office in this city yesterday brought the usual number of pickpockets and burglars. In addition to the many cases of petty thieving, the Ohio & Missouri ticket office was entered last night and the agent's desk robbed of \$150 in greenbacks and \$500 in mortgages. The mortgages were the property of the agent, H. H. Becher.

A Youthful Murderer. CLEVELAND, Aug. 6.—At the house of Anne Arnold, Friday evening, a young man, twelve year old son of Arnold quarreled with his eleven year old sister, and finally produced a double-barreled shotgun and discharged the contents into her body, causing instant death.

## INDIGNANT INDIANS.

Cowboys Kill Two Indians Belonging to the Two Agencies.

DURANGO, Col., Aug. 6.—The 800 Indians at the Southern Ute agency are in a state of excitement over the killing, by the cowboys, of two of their number who were on the reservation on a roundabout trip through the Blackfoot country. The news reached the agency Tuesday, by a Navajo courier, and O. R. Merrill, of the agency, who has arrived here reports that the Indians are indignant and boisterous. The Utes have been disconcerted for weeks. They were led to believe that congress would change their reservation from Colorado to Utah. The bill passed one branch of congress early in the summer, but is still hanging fire. As soon as the bill passed the house the Utes packed up their traps, and have ever since been ready to leave on a day's notice. The long delay has made them fruitful and led them to believe that some trickery was being played on them.

A month ago a party numbering in the vicinity of 100 left the agency for the country to the westward. The party was composed by the cattleman. Their depredations, such as killing cattle, burning grass, etc., have been reported from time to time, and a collision between the cowboys and the Indians has been expected daily. In anticipation of such trouble two companies of soldiers have been stationed on the Blackfoot creek. The place where the killing occurred is about sixty miles west of Durango. The particulars have not been received and probably never will be, as the cowboys keep this affair a secret among themselves. The Utes at the agency are reported to be in a deplorable condition. A lack of food is said to be diminishing their ranks. Three years ago they numbered 1,100; now they are only 500 strong. During the past year about 100 of them have died, while there have been only four births.

## MINISTER MURDERED.

The Fate of Rev. W. C. Hadlock for Being a Prohibitionist.

MILWAUKEE, Wis., Aug. 6.—The Rev. W. C. Hadlock, who has been murdered at Sioux Falls, Iowa, on account of his activity in behalf of prohibition, was well known in Wisconsin, where he had preached for years. However he advocated a cause he handled his opponent with gloves, and neither asked nor gave quarters. As an apologist or the church militant, the following prayer was read in his honor: "O God, while he was striving up the temperance cause in Sheboygan Falls, he was waylaid by five or six men, who all plotted on him at once with intent to murder him. He was a severe thresher. Although surprised by the attack, Hadlock quickly rallied, and, placing himself against a fence, knocked his assailants down as fast as they came. He was convinced that they had undertaken a bigger contract than they bargained for, the rough fight.

At another time, while preaching on temperance in the interior of this state, Hadlock made remarks which aroused the ire of the village blacksmith. He was called out and waited for him till the meeting was out and then undertook to thrash him. A rough-and-ready fight followed. The blacksmith was badly wounded. The blacksmith was a total abstainer, and in now one of the most rabid prohibitionists in his district. Governor Laramie issued a proclamation offering a reward of \$500 for the arrest of the murderer of Rev. Mr. Hadlock, the defender of prohibition at Sioux City.

## A BIG JAIL DELIVERY.

Six Indiana Desperados Save Their Way Out and Escape.

COLUMBIA, Ind., Aug. 6.—A wholesale jail delivery occurred here last night, six prisoners escaping by sawing through the iron grate gate, then letting themselves down from the second story window by means of a rope made from a mattress. They escaped in brick wall, eighteen feet high, surmounted by an iron grating three feet high, by the same means.

The cutting was done with steel saw twenty-seven bars two inches by half an inch thick was cut out. William Debro, who was in the jail, was the first to escape. He was in for burglary. Of the others, William Hatfield was in for burglary, Bob Dobson for burglary, Charles Bruns for burglary, and Charles Bruns for burglary. The commissioners have offered a heavy reward for their capture. The country is now being scourged by citizens on horseback.

Kansas Democratic State Convention.

LEAVENWORTH, Kan., Aug. 6.—The Democratic state convention met here at 10 o'clock and was called to order by W. M. Perry, chairman of the state central committee. Immediately on its assembling a resolution eulogizing and regretting the death of Samuel J. Tilden was passed, after which the temporary chairman, Thomas P. Fulton, appointed a committee on credentials, order of business and resolutions. The convention then took recess. There is a full attendance of delegates and much enthusiasm.

A Tri-Weekly Labor Paper.

CHICAGO, Aug. 6.—The Chicago Labor Press association decided last night to issue a tri-weekly labor paper. The paper will be called the "Chicago Laborer." The paper will be published on Sunday. The paper will be published on Sunday. The paper will be published on Sunday.

Inter-Departmental Convention.

PITTSBURGH, Pa., Aug. 6.—The weather conditions favorable to a thorough enjoyment of the harvesting program of the international convention in session at Valley Camp. The attendance is enormous. Yesterday's exercises were conducted by Bishop Samuel Fallows, of Chicago, and a young man, a child of the day. A special program is being prepared for the occasion.

## ROTTING MILL STRIKE.

LANCASTER, Pa., Aug. 6.—The employees of the Rottling mill, the Columbia Iron Works, of this city, are on a strike for an increase of wages. The strike is the Philadelphia branch. About 400 operators are affected. Negotiations are in progress for a settlement.

## GENERAL FOREIGN NEWS.

MR. GLADSTONE DOES NOT INTEND TO RETIRE.

He Will Take Part in All Important Subjects Brought Before the House, but Will Leave the Minor Affairs in the Hands of Mr. Arnold Morley.

LONDON, Aug. 6.—Mr. Gladstone's letter to Mr. Arnold Morley, frightens his supporters and the Conservative allies, the latter fearing that his retirement would reunite the Liberal party. The Cable News, however, has high authority for stating that Mr. Gladstone does not intend to retire. He will personally attend the house of commons upon all important occasions, and take an active part in all debates which seem to require his participation. The routine business will be left, so far as the Gladstonian party is concerned, in the hands of Mr. Gladstone's younger colleagues, under the leadership of Mr. Morley, who, it is understood, is entirely able to execute it.

The Cable News representative at Dublin has received a letter from Mr. James M. Lydly, the New York lawyer who visited Dublin on Monday, by the special invitation of the Earl of Aberdeen. In reply to inquiries concerning his visit to the secretary, Mr. Lydly said: "The Earl of Aberdeen sent me an autograph invitation to visit the vice royal lodge, in recognition of my efforts to secure the repeal of the Unionist clause in the English constitutions during the recent elections."

Referring to other attentions which had been shown him since his arrival in Great Britain, Mr. Lydly said: "Mr. Gladstone has already written to me, thanking me for defending the Irish Americans from the violent attacks of Goldsmid on the Victoria of Aberdeen wrote me the following note on Tuesday:

"Dear Mr. Lydly—Please accept my most sincere thanks for the most beautiful bouquet you so kindly sent me. With good wishes for your happiness, believe me, yours faithfully, LEAST ASSURANCE."

Liberal-Unionist Conference.

LONDON, Aug. 6.—A conference attended by fifty sixty Liberal-Unionist members of parliament was held here. Among those present were the Earl of Aberdeen, Chamberlain, Sir Henry James and Messrs. Rylands, Cairns, Heneg and Collings. The conference lasted one hour and a half. The Marquis of Hartington, the Liberal-Unionist leader, presided and delivered a lengthy speech on the work of the coming parliament. He hoped that the split in the Liberal ranks would soon be healed, thereby enabling the sections of the Liberal party to co-operate in the enactment of useful legislation and thereby oppose the separatist proposals.

Mr. Chamberlain followed, saying he would willingly accept Lord Hartington's leadership, who was the only one of the Liberal party who had not broken with the Liberal party. The announcement brought forth tumultuous applause. He declared that the Unionist party should not be allowed to make a mistake. Messrs. James and Cairns made addresses in a similar vein. A vote of thanks to Lord Hartington was carried by a large majority. A resolution was adopted to the effect that the Liberals and Liberal Unionists work together with their leaders, who as private counselors, should claim seats in both houses of commons on an equality with the Gladstonians.

Meeting of the New Parliament.

LONDON, Aug. 6.—The new parliament met at 3 o'clock, and after a few preliminary remarks, the reading of the list of members was begun. Among the earliest to arrive was Mr. Gladstone, who took a seat in the front Opposition bench, wholly unnoticed, not being recognized by his friends or enemies. He was hardly seated, when Mr. Chamberlain entered and sat down upon the Liberal bench. The Marquis of Hartington quickly followed and took a seat between Mr. John Morley and Mr. Chamberlain. When Lord Hartington took his seat, Mr. Gladstone arose, and advancing toward Chamberlain and Hartington, shook hands cordially with both, and immediately entered into conversation with them. Mr. Chamberlain and Mr. Lydly were re-elected speaker.

Throwing Out a Feeler.

LONDON, Aug. 6.—An article in yesterday morning's Standard the sent official organ, urged a policy of enforcing the collection of rents and hinting that the coming conflict will be one of law versus the National League exiles widespread attention and is the topic of discussion in political circles. The opinion is generally expressed that the article was put out as a feeler, and the Lord is-bracing himself and in politics, us for an expected fight next winter.

Ireland's Delegates to Chicago.

DUBLIN, Aug. 6.—Mr. Parnell, at the request of Mr. William O'Brien, has consented to accompany Mr. Edmund Lennox, Partridge M. P. for the Southwestern division of Cork, to accompany Messrs. O'Brien and Redmond on their visit to America to attend the convention of the Irish National League in Chicago. The delegates will sail from Queenstown on Sunday next.

Artillery Practice.

LONDON, Aug. 6.—The Canadian team won the victory in the artillery practice at Shoeburyness, by a score of 60. The next largest score was made by the Middlesex team who scored 50 points. The announcement of the victory of the Canadians was the signal for the wildest enthusiasm, and the victors were repeatedly cheered.

Presidency of the Royal Academy.

BERLIN, Aug. 6.—Kunzeper William has been elected president of the Royal Academy of Arts. He is a distinguished historical painter, to the presidency of the royal academy of arts.

The New Officers Taking the Oath.

DUBLIN, Aug. 6.—Londoners, the new victory of Ireland and Sir Michael Hicks Beach, the new chief secretary, were sworn in at Dublin Castle.

Another Riot Fended.

BELFAST, Aug. 6.—Menacing mobs are assembling in the streets here, and a renewal of the rioting is feared.

## THE DEAD STATEMAN.

The Funeral of Samuel J. Tilden will Take Place on Saturday.

YONKERS, Aug. 6.—The funeral of Samuel J. Tilden will take place from Greytown on Saturday next, the 7th inst. The body will be buried at New Lebanon, N. Y. The body has been embalmed. It now lies in a catafalque in the southeast corner of the second story of the building. The parlor is heavily draped. After the funeral services the body will be taken to Lebanon, Columbia county, for interment. The officiating clergy and pall bearers have not yet been definitely decided upon.

Rightly says that the body will appear in full dress and will be placed in a double coffin, now being made for the purpose. The outside box will be of Spanish red cedar, covered with black pine plank. The inside coffin will be of copper, lined with tufted satin, with a full length glass cover. The lid of the cedar casket will be of Spanish red cedar, the inside being tufted satin. The handles and claspings will be of solid silver, oxidized. On the outside lid will be solid silver plate, bearing the simple inscription: "Samuel J. Tilden."

At Lebanon the coffin will be put in a self-locking water and burglar proof steel grave vault, which will be enclosed in a marble grave.

## FLOWERS FOR FRIENDS.

Judge Gary's Court Room Scented With Sweet Perfumes.

CHICAGO, Aug. 6.—Louis Lingg furnished a huge bouquet in Judge Gary's court room. It was presented to him by his sweetheart, known to the court habitués by the euphonious title of "Mora." The other prisoners pursued their newspapers or smiled and chatted pleasantly to each other. The rain had the effect of slightly diminishing the attendance of the public, but the spectators were a goodly company present.

M. W. Malkoff, 393 West Randolph street, who had been formerly a reporter of the Arbeiter Zeitung, was present for the first time. "I afterward went to the Haymarket meeting," continued the witness. "After three hours was speaking. I remained about three or four minutes in the Haymarket court hall. I remember hearing the bomb explode. I was standing in Zepf's hall talking to Mr. Allen, a reporter for the Times, when the bomb exploded."

Malkoff avowed that he saw Parsons in Zepf's hall five minutes before the bomb exploded. Parsons was sitting in a room with his wife and Mrs. Holmes. The session was crowded at the time.

## THE CUTTING TROUBLE.

Mexicans Jealous Over Their Victory Over the United States.

ACUTIN, Tex., Aug. 6.—Gen. Beas received a private letter from the prominent and trustworthy American, residing in Chihuahua, Mexico, in which the writer says more fragmentary dispatches in northern Mexico, and that he has been cutting the Mexican version of the affair, and says the result may be unfortunate for American living in Mexico.

"The natives have said that the show of force sent by the governor of Chihuahua to Pachuca, and the American claim to the government from whatever position it had taken. This has satisfied them that the United States is afraid of Mexico, and will make them treat us with more respect. The American flag has been flying over public buildings for a day or two. Mexicans say that this is in honor of their victory over the Americans."

## Watching the Elections Result.

OTTAWA, Aug. 6.—G. A. C. Lariviere, minister of agriculture and statistics, in Montreal, is in this city. He has been watching the result of the last election for the Dominion parliament in Quebec, to see the effect of the Riel question. He is now satisfied the National Conservative party will win all through with the Liberals, and that in most French constituencies it will be the same. He is sure that on other day, victory for the Liberals. In English constituencies things will remain as they are now, about equally divided. The prospects are that of the general election of the house of commons, Blake must replace Sir John A. Macdonald.

## OIL STRUCK AT MILLERSBURG.

MILLERSBURG, O., Aug. 6.—The oil excitement has at last reached the oil fields, the drillers at the well of the Millersburg Gas, Oil and Fuel company, at 11 o'clock tapped the oil deposit at a depth of 780 feet. No gas as yet has been perceptible. Drilling is going on night and day, and it will not be surprising if a well is reported soon from here equal to any yet in the Ohio field. The citizens are highly elated over prospect.

## Stubborn Canadians.

MONTREAL, Aug. 6.—There is a great deal of feeling here and elsewhere in Canada over Congressmen's claim that the Canadian claim that such a movement is considered in bad grace for Massachusetts. The editorial in the New York Herald, which is urging President Cleveland to adopt the policy toward Canada threatened by Grant in 1870, has called down all sorts of vituperation on that paper. The Canadian claim that they will not budge an inch in the maintenance of their rights, and that they will be backed up by England.

## Cousins Kill Each Other in a Quarrel Over Property.

AKRON, O., Aug. 6.—Word has just been received here of what will prove a double murder, which took place in Sharon township, Mohican county, Missouri, last week. Thelbert S. S. Totten, forty, and Thomas G. Briggs, forty-five, full cousins, and living on adjoining farms, have quarreled over \$30,000, left them by a California relative. This morning they had hot words, ending in both drawing revolvers. Totten fell dead at the second shot. Briggs fired a second shot into the body of his opponent, who lies in a dying condition. Both men have relatives in this city. Totten was wealthy, and owned four farms. Another farm, that Totten first shot Briggs and suicided.

## COMMUNICATED.

## CHRISTIAN DUTY.

**Editor Bulletin:** Our usually docile and amiable street statues who stand on the street corners, criticizing and condemning the communication your paper published on the labor question of a recent date, should be sure the author is not present while they are doing so. Why one would have thought they had swallowed a clothes-pin, a mestax or a pallid of blue vitriol or some such! Therefore, do they lose their sweet spruce-gum temper and fly into such a fit of violent wrath, and accuse us of the terrible crime of copying the article from some book or paper? We do not claim to furnish all the brains there are floating around loose; and when they see anything in the columns of the Bulletin signed "L." that in their exalted estimation would please them, make them laugh and grow fat, read it, criticize it and will promote it to turn ourselves inside out or jerk ourselves into a double-barreled connotation fit, if they do inadvertently neglect to give us credit for it.

But to our subject. Christianity should take a hand in the labor agitation that is going on in the land. Christ and his personal disciples were from the lower, common walks of life and country folks associated with that class. Each one of his chosen twelve came from the laboring class, about one-half of them being fishermen. Paul himself, though well educated, was a tent-maker by trade. Such was the class from which the Savior selected his trusted disciples to work in his vineyard and spread the gospel among all the people. If on earth to-day, there is little doubt where the sympathies of Christ and his disciples would be enlisted. Their followers, if true and sincere, should walk in the same direction. He who overthrew the tables of the money-changers would never endure the arbitrary and snarling policy of articles in mill-owners and soulless corporations. Christian men and women should give their support to the laboring classes in all their struggles for their rights. Christian civilization should grapple with and solve the great question of Labor and Capital. Followers of Christ are not doing their duty when they remain idle and listless, and permit the wrongs towards laboring men and women to exist. A passive indifference in the continuation of wrong is not a virtue, and falls little short of being a vice. If Christianity is to master the world it must give law to trade, and see that a proper balance is placed between labor and capital. The church seldom punishes the vice of avarice, but it should never hesitate a moment to use the compass and happiness of a whole class of fellow creatures are involved. Christian men and women should promptly and enthusiastically array themselves on the side of justice and right in this struggle of labor to free itself; they should perform their whole duty in this crisis. Are they quite sure they are doing so now? "L."

## Southern Exposition.

(Correspondence DAILY BULLETIN.)

The Southern Exposition at Louisville opens August 28. Every one seems to be taking a greater interest in this exposition than ever before. The exhibitors are already at work preparing their exhibits, which this year are to be especially novel and attractive. One of the most pleasing and instructive will be a Japanese village, which will be situated in the Machinery Hall of last year, in the southern part of the building.

A tank which had been used for exhibits of pumping machinery will be converted into a clear, beautiful lake, across which will be stretched a rustic bridge. On the mossy banks around the lake the boats will be built in true Japanese style. The fences and walls will be made of bamboo, reeds, thatched, and tiled and decorated in a national manner. The village will be peopled with natives, and their peculiar methods of cooking, eating, and manufacturing artistic articles, with which all of us are familiar, will be shown every day.

The Art Gallery, this year, will be situated in the main building. All the spaces are filled, except one portion, devoted to paintings by native artists, and it is filling rapidly. The first card of paintings arrived to-day. The carpenters will not be out of the Art Gallery until August 8, and after that the hanging of pictures will begin.

The music at the exposition has become the chief attraction to Louisville people. Danrosch's Orchestra has been engaged for the first four weeks, and Cappa's Military Band for the last four. The season tickets are only \$8. Think of it! Ninety-six concerts for that sum of money. No other exposition in the country has ever attempted such a thing of music at such a price. The Music Hall will be an agreeable surprise to those who visit the exposition this fall. It is very much improved by the changes made in it for the Opera Festival last year.

The opera chairs will be much more comfortable than the hard, wooden benches with which the Music Hall was seated last year. The acoustic properties of the hall are very fine. One may sit in the rear seats the hall and still hear distinctly every note of music played by the orchestra.

Come down for the opening. Louisville is expected to be big on that day. As yet the programme has not been made out, but great preparations are going on. Invitations have been extended to Senator Sherman and Speaker John G. Carlisle to deliver addresses at the exposition on the opening day, but as yet they have not formally responded. Already notices have been sent out of office of the exposition of a number of excursions on that day, and crowds will be here.

## The manifold Uses of Luminous Concrete—Guides and Beacons.

A method of utilizing the luminous powder prepared mainly as a sulphide of calcium for admixture with cement, plaster of Paris and concrete has been recently invented by a couple of London men, the object being to prepare the articles with a self-contained phosphorescent property instead of coating them with luminous paint. As an example, the patentees take of cement, such as is known as Keen's Portland or other suitable make, in varying proportions, as, for instance, two pounds to five pounds to one pound of the luminous powder; mix the same with water, and then mould it to required shape in the usual way, or lay it out on ceilings or walls by means of a trowel.

The patentees attach importance to placing the moulded articles, as soon as they have been covered with a thin layer of paraffine wax and benzoline or other suitable weather or water proofing substance. In the case of using the luminous cement upon a wall or ceiling, they suggest or the surface over with a solution of paraffine wax and benzoline or other suitable damp-proofing solution. The use of a luminous cement are manifold: For the garden-luminous concrete as edging to garden paths and carriage drives, for guides and beacons at the entrance gates of drives, inside of stables, the base of balustrades, or the entirety of balustrades. For roads—as luminous beacons at corners of dark country lanes, and at the ends of bridges, ends of walls and curbs of footpaths. For docks—for edging of piers and wharves. For water-works—for the safety and despatch of night work by the erection of luminous guides and beacons and for fire plug notices on walls. In short, for any places where the light of day will sufficiently excite the phosphorescent property as to render the cement or concrete work luminous by night.—Scientific American.

## The Prussians, English and Russians.

The whole character of the Prussian is above all governmental. In this lies our strength—as well as the reason that we Prussians and the north Germans generally, who are influenced by us, are rarely attractive to others. In the English and in the Russian this governmental stamp is less predominant. The English are, notwithstanding their peculiar manners and customs, the freest nation in the world—the freest in the sense that they are not influenced by the government. The Russian is a slave to the government. But there is a small part of Russian society which is free from the influence of the government as the English themselves, and where the social laws are also self-imposed. Of Russian society in general it must be said that it bears neither the governmental stamp of Prussia nor hardly a trace of the order of English society; it is a loose, shapeless mass, which, however, by individual amiability, is astonishingly attractive. But the one thing which is peculiar to the Prussians—namely, the governmental character of society—can be found neither among the English nor the Russians. If we want to be anything in society we must be soldiers or officials; otherwise we are nothing.—German Newspaper.

## CHICAGO TAXES.

Millions of Dollars Worth of Property Escaping Taxation.

CHICAGO, Aug. 6.—The Cook county board of supervisors has held a meeting, at which a sweeping increase was resolved upon in the matter of city assessments. Mr. Van Wert said the assessments year after year were becoming more outrageously unequal, and that the property of the poor people being taxed to the full legal limit, while that of the rich was in some cases only taxed one-tenth of the proper amount.

In the southern division of the city, he said, there was property worth \$300,000,000 which was escaping taxation, and he knew of a man who had \$250,000 in bonds who had not paid a cent. He offered a resolution, which was adopted, setting aside the assessments handed in by the assessors, and increasing the assessments as follows: North Chicago, \$400,000; West Chicago, \$2,000,000; North Chicago, \$1,000,000. Assessor Hall, of West Chicago, says the board has no authority to take this action. The board also increased the assessments on suburban property in Cook county by \$10,000,000, making a total increase of \$18,000,000.

## Red River Rising.

GARNERSVILLE, Tex., Aug. 6.—The Red river has risen twenty feet since yesterday afternoon. The sea swept away and destroyed all the work that had been done on the Santa Fe railway bridge. An immense trestle work that had been built across the river for use until the bridge should be completed was carried away. One of the boats, containing an engine, was lost, and a spike driver and engine were carried down the stream and sunk. It will be several weeks before work on the bridge can be resumed. The river is higher than ever known before.

## A Question

Often asked, but seldom answered satisfactorily: "Is there a remedy known to the medical profession that will allow the suffering patient to women who are subject to dysmenorrhea to live without discomfort?"

For you have not tried it, do so AT ONCE. There is relief for you; it has been found in

## Fongaline

Read what an eminent physician has to say upon the subject:

"I have derived particularly gratifying results from the use of Fongaline in cases of Dysmenorrhea. In the case of a lady of chronic neuritis, and a chronic sufferer from this disease, who had been driven almost to the verge of insanity by the extremely suffering, her action has been most satisfactory. It relieved her promptly, and she now passes the case described periods with but little discomfort. I could mention other instances of a similar character, but this is a remarkable case."

## CITY COUNCIL.

Monthly Report of Officers—Claims Allowed—Permits Granted—Other Business Transacted.

President J. P. Phinier rapped the City Council to order promptly at 8 o'clock last evening. A call of the roll found only three members absent—Messrs. Hechinger, Yancy and Hendrixson. Mr. Yancy afterwards came in.

Minutes of last meeting were disposed of in usual manner.

Report of the various city officers were filed and approved. Mayor Pearce reported fines to the amount of \$1,099 assessed during past month, of which \$83 had been paid to City Marshal, \$165 reported, \$48 worked out, \$758 being worked up, and \$17 escaped.

City Marshal reported \$115 as amount of fines and old bonds collected.

The warrant for the month was reported at \$247 by Wharfmaster Phinier.

Treasurer C. S. Leach was sick and unable to make his monthly report.

Claims and accounts to the amount of \$1,075.21 were allowed and ordered paid.

The petition of J. Hamilton, agent, for permit to erect office at coal scales on east side of commerce street, north of Second, in Fifth ward, was taken up. It has been pending for several months and has caused considerable feeling. Permission to erect scale was first granted, but after their rejection no convenient place for an office could be found, and a permit to place a small office over scales was asked for. Remonstrances were sent in and the question has been a bother ever since. Remonstrances were again sent in last evening from parties residing in adjacent property that the office would be a nuisance and obscure the view. Other objections were made, and the question was discussed pro and con for some time. Permit was finally granted by a vote of eight to three.

Payment on Fleming pipe was reported completed, but collections were not all made. Further time was given committee.

The contract for furnishing a hose-reel for Amazon Fire Company was awarded to Owens &amp; Barkley at \$150, real to be of Rumsey &amp; Co.'s make, and delivered in this city. Owens, Mitchell &amp; Co.'s bid was on same reel at same figures, but to be delivered at Cincinnati. The only difference in the two bids was the freight from Cincinnati to this city.

Improvements to gutter on south side of Second street—German town pipe—are being made, and will be completed this week at a cost of about \$150.

The oft-mentioned question as to ferry ordinance was continued, the committee having taken no action.

The question as to making arrangements with Street Railroad Company for keeping Germantown pipe in repair was stricken from minutes.

Further time was given committee to confer with Colonel Baldwin and others as to purchase of that part of German town pipe within city limits.

Fitting up of additional rooms in High School building is in progress. The improvement will be a handsome one.

The question of building a sewer along Market street to High School building was discussed at some length. The cost was estimated at from \$300 to \$1,000. The matter was referred to committee to prepare specifications and receive bids for said work, and also bids for tapping old sewer and sewer, and report to council.

Permits were granted as follows: Geo. Beasley, frame stable on Sutton street above Fourth; T. T. Emmons, frame stable on rear of lot in Fifth ward, between Second and Front; Elizabeth Haney, frame addition to residence on Fourth street, Fifth ward; C. H. Mitchell, to put drain pipe from cellar of house on Bridge street to sewer; John H. Madrox, one-story work shop on lot, corner of Commerce and Front streets.

On petition, Committee on Internal Improvement was ordered to grade and pave Strawberry alley from Third to Fourth streets, between Limestone and Plum.

The matter of hiring prisoners in the jail to contractors on railroad was referred to Committee on Police and City Marshal with power to act.

Committee was instructed to put in additional ring-bolt on the grade between Market and Limestone streets.

The attention of the council was called to the fact that Wm. Wornald had been occupying part of city landing since the surrender of his lease. The Wharfmaster was instructed to collect rent from Mr. Wornald for said time.

Notice was ordered to be given to the Mayville and Big Sandy Railroad Company to make the necessary changes in water mains at Commerce and Third streets, caused by the grading of said road.

The Marshal was instructed to have a previous order of the Council enforced as to repaving pavement on east side of Sutton street, between Front and Second.

Deputy Marshal Dawson was granted leave of absence to attend Bugles Camp Meeting, on condition he furnished a substitute.

The attention of Council was called to

the occupants of "Owens Row." The place had become a nuisance, it was said, and was causing the police more trouble than all the rest of the city. It was injuring other property in that vicinity. Marshal Hefflin said it was becoming unsafe for ladies to pass there of evenings without escorts. Vile language could be heard at most any hour from its occupants. The police were instructed to rigidly enforce the ordinance against such offenses. [The whole matter will likely be placed before the next grand jury.]

W. S. Frank, President of Board of Education, filed his annual report. After some other matters of minor importance were disposed of, Council adjourned.

## THE COMING FAIR.

Entries for the Races all in, and a Fine Lot of Trotters will be Hand—Encouraging Outlook.

These contractors are making good progress on the railroad bridge across Limestone Creek. The derricks were completed last evening, the engine is in position and the work of driving the piles upon which the foundation is to be laid will be commenced to-day. The piles will be sunk to the depth of forty feet, at least. If a good foundation is not obtained at that depth, piles sixty feet in length and about 200 in number will be used. They are of oak and very heavy. Upon these piles other oak timbers will then be laid, and the stone work will then follow. It will require from 700 to 1,000 car-loads of stone to complete the structure. Several car-loads have already been received. The stone is as fine as can be had anywhere, and is being furnished from the quarries in Rowan County. A large shipment of cement has also been received, and about everything is now in readiness to push the work to an early completion.

## A TRAIN ROBBER FOILED.

A DESPERATE ATTEMPT TO ROB AN EXPRESS TRAIN.

A baggage man on the Monon Route seriously wounded by the robber, who is driven away by the bravery and coolness of the Express Messenger.

CINCINNATI, Aug. 6.—A special dispatch from Bloomington, Ind., to the Evening Post says: "Passenger train No. 8, on the Louisville, New Albany & Chicago branch route, with one passenger car, left Greencastle last night on time, and after crossing the El river, at Maple Grove, began to climb the long grade leading out of El river valley to the wooded and fertile tableland between El and Sugar creek. In the express car, which is a combination express and baggage car, sat in their arm chairs Baggage man J. F. Winchester and Express Messenger George Perkins. They were half dozing while the train climbed up the embankment, the next point where baggage and express were to be received or discharged. The side doors of the car were closed and the end door leading back into the passenger car was not only closed, but also heavily chained."

Since the great express robbery near Harrodsburg, on the same route a year ago, the doors of the express cars have been very carefully protected. The train had hardly commenced the ascent out of El Valley, when it was running about twenty miles an hour, when Winchester, who was sitting nearest the end door, was awakened by a sudden knocking against it. Supposing it to be one of the train men, who wanted to enter, he went to the door and undid the chain. Instantly a burly man on the platform pushed it wide open, and without a word leveled a revolver full at Winchester's breast.

Before Perkins, the express messenger, could spring from his chair and snatch his self-defending Smith & Wesson from the rack over his head, the robber, fired, and Winchester fell, shot in the breast. Almost simultaneously five shots from Perkins' gun rang out in the midnight air, and the assassin would be robbed turned and leaped from the train. Perkins ran after him to the door, but the train, which was now speeding up, had rushed past him, and the assassin had disappeared, and though it was moonlight, he could not catch a glimpse of him.

During the whole encounter, which did not consume more than half a minute, not a word was spoken. Perkins then turned his attention to the prostrate and bleeding baggage man, and made him as comfortable as possible. He then ran back to the train, and the alarm was given, and the whole community turned out to catch the murderer, who could not be more than five miles away, when Perkins is quite sure he wounded seriously, if not fatally.

Winchester lives at New Albany. He was taken to Greencastle, where he is now resting quietly. The surgeon gives some hope of recovery.

All speak in high praise of Perkins' coolness and bravery, which not only protected the property of the company but also saved his own life, and probably that of Baggage man Winchester. The train at the same time probably would have been a desperate and murderous train robber.

The superintendent of the express company, the American, has wired the agent at El Valley to spare no expense to capture the robber. Armed parties are scouring the country in search of him.

The express robbery on this route a year ago, for which Chesley Chambers was now serving a term in the penitentiary, occurred under similar circumstances. The train was climbing the grade from Salt creek valley, near Harrodsburg. Chambers opened the door about midnight, and instantly shot both baggage man and express messenger. He then rifled the safe and escaped. By almost a miracle the wounded man recovered and helped convict Chambers by identifying him.

## OHIO GAS WELLS.

The Strongest Oil in the State. Proves to be Near Bainbridge.

FOSTORIA, O., Aug. 6.—The first well of the Northwestern Ohio Natural Gas company, of this city, located five miles west of here, reached Bainbridge, O., yesterday afternoon, and has no depth, and the drill is again in shale. However, a good vein of gas has been reached, a quantity being between two and three million cubic feet a day. Drilling is being continued, and it is thought that even this good flow can be largely increased. The gas will be piped here by the company, who will put down several more wells at once.

The Simons well, owned by Dreyer State company, came in and proves to be without exaggeration the strongest well yet discovered in Ohio, not excepting the large well at Findlay. The amount of gas flowing for oil, but the force of gas is so great as to prevent the drill from reaching the bottom of the well. A conservative estimate of the flow of gas is 10,000,000 cubic feet a day. The well is located near the village of Bainbridge, eleven miles west of this city.

## Lima Oil Notes.

LIMA, O., Aug. 6.—H. H. Hopkins drilled in three wells. The one on H. A. Moore's farm is flowing 100 barrels through the casing, and another one near the old oil well is flowing 100 barrels through the casing. It is impossible to pump the oil. Hopkins third well on Pine street is good for 100 barrels pumping. Phillips & McLeod are drilling in Canaan, and it is with a fair showing. The Howard well was not and is making hourly flows of twelve and a half barrels each. It is the giant of the field and is flowing through the casing, all efforts to take it being in vain. The field is rapidly moving south. Three derricks have been built at Unolopolis, and Russell, Murray & Co. will commence drilling on the Layton farm at that place.

Foundryman at Reading. READING, Pa., Aug. 6.—The Philadelphia & Reading foundry has been employing a man who was not a Knight of Labor, and who refused to join the organization. The molders and other employees, over 150 in number, walked out of the shop in a body, refusing to work with him any longer. The company refuses to discharge him, and the foundry is now idle.

## Grocery Store Fire.

MURKIN, Ind., Aug. 6.—The grocery and provision store of C. E. Case, on West Charles street, was fired. Loss on building and stock \$1,000. Insurance \$500, as the Glenfield Insurance.

Trying to Revive Alarm. CHICAGO, Aug. 6.—Mrs. A. R. Parsons and Mrs. Mary Henry have lately been making strenuous efforts to re-establish the Alarm, the English edition of the Arbeiter Zeitung. They have failed signally, as no printer will undertake to publish them. Since the Haymarket affair the printers have been so shy of the spot as if it were under imperial prescription. Mrs. Parsons says: "Our failure to revive the Alarm has failed, and its reappearance must now await the disposition of my husband's case. He will be capable upon the release of taking it in hand. In the event of the worst, others can doubtless be found to revive the paper."

WASHINGTON, Aug. 6.—Indications for the Ohio Valley: Local rains, variable winds, becoming southerly, stationary temperature.

## FINANCE AND COMMERCE.
